Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The method is directed to the formation of a silicon and magnesium containing porous hydroxyapatite. The method steps provides a coral sample and treats the sample with silicon acetate. The method steps are devoid of the provision or a source of magnesium into the sample and therefor, as worded, the claims are incomplete.

Allowable Subject Matter

Claims 2-6 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
